We need a serious cleanup of the Wilamette River and the Portland Superfund Site. We need the river to be clean enough for people to be able to safely eat the fish that are caught in that part of the river... not just a few ounces a month, since fish don't come that way.

It is absurd that the companies that polluted the river can now get away with a partial cleanup. I will be at several of the hearings that are scheduled.

Please do the right thing!!
